

Special Issue

Latest Molecular Research on Polymer Coatings

Message from the Guest Editor

The modern world is characterized by the rapid obsolescence of technologies and materials. New materials are constantly being developed to meet the evolving needs of society and improve quality of life. Advanced materials drive progress, requiring new compounds with specific properties. Materials science has shifted from studying composition-structure relationships to including manufacturing and processing. The key challenge now is the discovery and development of advanced materials, relying on basic molecular-level research. Materials science and technology are closely linked, focusing on innovation.

Accordingly, the proposed Special Issue of the International Journal of Molecular Sciences will cover the results of research on the synthesis, characterization, and properties of new compounds. In particular, results on surface properties, wettability of various solids under different conditions, and areas of application will be highlighted.

Guest Editor

Dr. Joanna Karasiewicz

Department of Chemistry and Technology of Silicon Compounds, Faculty of Chemistry, Adam Mickiewicz University in Poznań, Uniwersytetu Poznańskiego 8, 61-614 Poznań, Poland

Deadline for manuscript submissions

20 June 2026

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
