

## Special Issue

# Neuroinflammation, and Alcohol Use Disorders: Molecular Mechanisms and Treatment

### Message from the Guest Editor

This Special Issue of the *International Journal of Molecular Sciences* explores the intricate molecular mechanisms underlying neuroinflammation in AUD, shedding light on crucial pathways involving glial cell activation, cytokine dysregulation, oxidative stress, and blood–brain barrier dysfunction. Additionally, it emphasizes recent developments in therapeutic approaches targeting neuroimmune interactions, including pharmacological interventions, biomarker discovery, and novel approaches such as gene therapy and neuroimmune modulation.

By assembling different cutting-edge research, this issue aims to strengthen our comprehension of the interplay between neuroinflammation and alcohol-related abuse, promoting the development of innovative treatments to counteract the long-term consequences of AUD. We invite researchers and clinicians to participate with their ideas and findings, contributing to the ongoing effort to translate molecular insights into efficient therapeutic solutions.

---

### Guest Editor

Prof. Dr. Marco Fiore

Institute of Biochemistry and Cell Biology, IBBC-CNR at the Department of Sense Organs, Medical Faculty, Sapienza University of Rome, 00161 Rome, Italy

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
