

Special Issue

Molecular Insights into Pancreatic Diseases

Message from the Guest Editor

In this Special Issue, we examine the current treatment strategies for pancreatic cancer, highlighting the utility of precision medicine for an increased understanding of cancer mechanisms. We highlight potential novel agents that may promise a better outcome for patients with pancreatic adenocarcinoma. Furthermore, we discuss the current treatment of neuroendocrine tumors, with special focus on targeted agents and radiopharmaceuticals. We also address the challenges and limitations associated with molecular diagnostics and targeted therapies in pancreatic cancer, as well as future directions for research and clinical practice.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

Neoadjuvant versus adjuvant therapy for resectable and borderline pancreatic cancer.

Understand molecular mechanisms of PDAC/pancreatic cancer.

KRAS and beyond in pancreatic adenocarcinoma.

Current treatment of neuroendocrine tumors including PNETs.

Advances in radiopharmaceuticals.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
