Women's Special Issue Series: Recent Advances in Molecular Crystal Materials

Message from the Guest Editors

As a female scientist, I know that it is harder for woman to conduct scientific research. However, both men and women have their own unique skills and can become excellent researchers. Scientific research requires men and women to participate together. However, according to UNESCO's latest report, there are fewer woman in science-related fields. One-third of global science researchers are women, and the gender gap is wider at higher levels. The international community has encouraged women and girls to participate in science and has established the "International Day of Women and Girls in Science". To encourage more women to join and take an interest in science, *International Journal of Molecular Sciences* is launching a Special Issue titled: "Women's Special Issue Series: Recent Advances in Molecular Crystal Materials". This Special Issue is intended to provide an overview of some of the latest results and key findings in the field of molecular crystal materials. Articles for which the lead authors are women or those that are completely authored by women are encouraged. We welcome submissions from all authors, irrespective of gender.

Guest Editors

Prof. Dr. Qingwei Liao

Key Laboratory of Sensors Technology, Beijing Information Science & Technology University, Beijing 100192, China

Dr. Xiuyu Wang

College of Energy Engineering, Zhejiang University, Hangzhou 310058, China

Deadline for manuscript submissions

closed (20 June 2024)

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
