Special Issue

Neuroendocrine Tumors: From Molecular Pathology to Novel Therapeutic Approaches, Including Theranostics

Message from the Guest Editor

This Special Issue of the International Journal of Molecular Sciences (IJMS) focuses on the latest advancements in Neuroendocrine Tumors (NETs), As precision medicine continues to transform oncology and molecular pathology, theranostics and innovative therapeutic strategies have emerged as powerful tools in NET management. The present Special Issue invites submissions of original research articles, reviews, and clinical studies that explore the following: The mechanisms and insights considered to achieve a comprehensive understanding of tumor progression. The exploration of novel therapeutic and diagnostic approaches, including the utilization of radionuclide therapies, to identify biomarkers that can drive targeted treatment strategies. The analysis of advanced imaging modalities for diagnosis and treatment planning. The investigation of targeted therapies and the development of personalized treatment strategies to address an individual patient's needs. The advancement of translational research to establish a connection between laboratory and clinical applications.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
