Obesity: From Molecular Mechanisms to Clinical Aspects

Message from the Guest Editor

Obesity is a serious global health problem with high mortality and morbidity rates. Food intake, physical activity, adipokines, gut hormones, inflammation, genetics and epigenetics, bariatric surgery, and synthetic agents affect the development and progression of obesity and obesity-related diseases, such as diabetes, metabolic-associated steatotic liver diseases, cardiovascular diseases, and cancers. The reduction in adipose tissue in obese subjects represents an important goal for the prevention and treatment of these chronic diseases. We invite articles that are based on novel ideas for cellular and individual studies, as well as review articles. Pure clinical reports may not be accepted.

Guest Editor

Prof. Dr. Bunzo Matsuura

Department of Lifestyle-Related Medicine and Endocrinology, Graduate School of Medicine, Ehime University, Shitsukawa 454, Toon 791-0295, Japan

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
