

Special Issue

Molecular Research in Retinal Degeneration

Message from the Guest Editors

Retinal degeneration is a vital research area that encompasses a variety of approaches, from clinical studies to basic and applied research. This Special Issue aims to bring together innovative and cutting-edge research that advances our understanding of the causes, mechanisms, and treatments of diseases affecting the retina. I cordially invite all interested researchers to submit their contributions for consideration in this Special Issue. We welcome original articles, reviews, and brief communications addressing any aspect related to retinal degeneration, including but not limited to the following:

- Molecular and cellular mechanisms involved in retinal degeneration.
- Novel therapeutic strategies to prevent or treat retinal diseases.
- Advances in diagnostic techniques and monitoring retinal degeneration.
- Clinical studies evaluating the efficacy and safety of therapeutic interventions.
- Future perspectives and challenges in retinal degeneration research.

Dr. Sandra Tenreiro

Guest Editors

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
