New Therapies, Pathogenetic and Inflammatory Mechanisms in Thrombosis

Message from the Guest Editor

Thrombosis remains a major global health challenge, contributing to life-threatening conditions such as myocardial infarction, ischemic stroke, and venous thromboembolism. While anticoagulant and antiplatelet therapies have significantly improved patient outcomes, the intricate interplay between coagulation, inflammation, and endothelial dysfunction continues to pose challenges in both prevention and treatment.

This Special Issue aims to explore the latest advances in thrombosis research, focusing on the molecular mechanisms underlying thrombus formation and resolution, as well as novel therapeutic strategies that target its pathogenetic and inflammatory components.

Guest Editor

Dr. Matteo Becatti

Department of Experimental and Clinical Biomedical Sciences "Mario Serio", University of Firenze, 50121 Firenze, Italy

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
