

Special Issue

Current Trends in Chemistry towards Biology

Message from the Guest Editors

Knowledge of the interactions between molecules is undoubtedly the driving force behind all contemporary biomedical and biological sciences. Chemical biology/biological chemistry has become an important multidisciplinary bridge between chemistry and biology dealing with the study of small molecules, peptidomimetics or peptides, and their interactions in biological systems. This Special Issue is intended for all researchers involved in the structure and analysis of biomolecules, the design and development of biologically active compounds and materials, and their interactions. Both works of a theoretical nature and manuscripts dealing with the mentioned topics at the level of *in vitro/ex vivo* and *in vivo* are welcome. Papers dealing with the structure of receptors and the enzymatic cascade are also invited.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
