

Special Issue

Fine-Tuning Proteostasis: Insights into Ubiquitination and Deubiquitination Pathways

Message from the Guest Editor

This Special Issue aims to provide a comprehensive platform for recent advances in understanding the molecular mechanisms and biological functions of ubiquitination and deubiquitination processes. We welcome original research articles, reviews, and perspectives that explore how these reversible modifications regulate fundamental aspects of cellular physiology, including but not limited to, the following:

- Protein quality control and proteostasis;
- Signal transduction pathways;
- Cell cycle and apoptosis;
- DNA damage response;
- Immune and inflammatory responses;
- Stress adaptation and autophagy.

Furthermore, this Special Issue encourages submissions that address novel regulatory components, crosstalk with other post-translational modifications, and emerging techniques (e.g., proteomics, CRISPR-based screening, PROTAC/DUBTAC approaches) that elucidate the dynamic nature of ubiquitin signaling networks.

Guest Editor

Prof. Dr. Kwang-Hyun Baek

Department of Biomedical Science, Cell and Gene Therapy Research Institute, CHA University, Seongnam 13488, Republic of Korea

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
