

Special Issue

Computational Biophysics and Bioinformatics of Proteins

Message from the Guest Editor

This Special Issue of the *International Journal of Molecular Sciences* will focus on the “Computational Biophysics and Bioinformatics of Proteins”. In today’s rapidly advancing field of bioinformatics, computational biophysics and bioinformatics play a crucial role in understanding the complex structure, function, and dynamics of proteins. The research presented in this Special Issue will highlight the important role of computational biophysics and bioinformatics in advancing our understanding of protein structure and function.

Guest Editor

Dr. Preeti Pandey

Department of Physics and Astronomy, Clemson University, Clemson, SC 29634, USA

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
