Impacts of Environmental Pollution on the Development of Non-communicable Diseases

Message from the Guest Editors

This Special Issue, entitled “Impacts of Environmental Pollution on the Development of Non-communicable Diseases”, welcomes original research and reviews in this field, with a focus on the impact of environmental pollutants on non-communicable diseases, particularly new mechanistic studies of the toxicity and mixture evaluation and their implication in disease and human risk assessment.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
