

Special Issue

Molecular Application of Mass Spectrometry and Chromatography in Biomedicine: 2nd Edition

Message from the Guest Editor

This Special Issue is a continuation of our previous one, entitled "Molecular Application of Mass Spectrometry and Chromatography in Biomedicine"

(https://www.mdpi.com/journal/ijms/special_issues/8BW7G1A515). For this Special Issue, considering the field of biomedicine, we aim to collate papers addressing the application of mass spectrometric techniques, whether used alone or in combination with chromatography, for the identification, quantification, or structural elucidation of biomolecules, including proteins, lipids, metabolites, and pharmaceutical compounds; this will enable the study of disease biomarkers, advance drug discovery, unveil potential health benefits, and enhance clinical diagnostics. This Special Issue is supervised by and assisted by our Topical Advisory Panel Member Dr. Mariachiara Bianco. We invite you to contribute your original articles or reviews related to approaches involving mass spectrometry and chromatography for biomedical applications to this Special Issue.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
