Selected Papers from the International Conference on Plant Systems Biology

Message from the Guest Editors

We cordially invite you to submit your research to the Special Issue, "Selected Papers from the International Conference on Plant Systems Biology and Biotechnology 2023", dedicated to ICPSBB 2023.

Colleagues who attended ICPSBB 2023 are eligible to apply. Topics covered by ICPSBB 2023 included abiotic and oxidative stress, bioinformatics and computational modeling, plant biotechnology, genetics and genomics, molecular biology, molecular breeding, plant signaling and development, and plant systems biology. In line with the policy of *IJMS*, this Special Issue focuses on molecular studies in biology and chemistry, with a strong emphasis on molecular biology, molecular genetics, and plant systems biology.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
