

Special Issue

Natural Products as Source of Molecules for Drugs and Therapy

Message from the Guest Editor

Natural products derived from herbal medicines and plants have traditionally been used as major sources of therapeutics. Recently, natural products have been used as alternative medicines or clinical approaches for various diseases; however, the biological or pharmacological understanding of their effectiveness and mechanism of action remains unclear. Emerging evidence suggests that natural products can serve as drugs or therapeutic agents for human diseases. Therefore, this Special Issue of *IJMS* aims to invite researchers to contribute research and review articles that provide pharmacological evidence and therapeutic approaches to natural products or their components. To ensure the quality of the article in the Special Issue, the chemical profiles of natural products, mechanism of efficacy, and in vivo experiments should be included.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
