

## Special Issue

# Natural Compounds as Functional Additives of Foods

### Message from the Guest Editors

Dear Colleague, This Special Issue on “Natural Compounds as Functional Additives of Foods” is dedicated to the advancement of this field, aiming (I) to further exploit the use of natural compounds that can serve as functional additives in foods and (II) examine the mechanisms via which the desired effect is achieved. We invite authors to submit original research articles, communications, and reviews related to the topic.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
