

Special Issue

HIV Infection, Pathogenesis and Treatment

Message from the Guest Editor

We invite authors to submit original research articles, reviews, and perspectives focused on HIV infection, pathogenesis, and treatment. This includes, but is not limited to, studies exploring viral mechanisms of persistence, host immune responses, comorbidities, innovative therapeutic strategies, and advances in antiretroviral therapy. We especially welcome interdisciplinary approaches that integrate molecular biology, immunology, clinical research, and public health to deepen our understanding of HIV and inform effective interventions. Submissions that address emerging challenges and novel insights in HIV care and cure are highly encouraged.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
