Unraveling the Molecular Landscape of Systemic Lupus Erythematosus

Message from the Guest Editor

Systemic lupus erythematosus (SLE) is a complex autoimmune disease characterized by multifactorial immune dysregulation and heterogeneous clinical manifestations. Recent advances in molecular and cellular biology, multi-omics technologies, and biomarker discovery have provided novel insights into its pathogenesis and therapeutic opportunities. This Special Issue aims to highlight cutting-edge studies elucidating molecular mechanisms, signaling pathways, and translational approaches toward precision medicine in SLE. While purely clinical investigations are not suitable for *IJMS*, submissions integrating molecular, biochemical, or cellular experiments—either in patient-based or experimental models—are particularly encouraged.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
