Special Issue

From Macrophage Biology to Cell and EV-Based Immunotherapies

Message from the Guest Editors

We are pleased to introduce to you the new Special Issue of the Molecular Immunology Section of the International Journal of Molecular Sciences entitled "From Macrophage Biology to Cell and EV-Based Immunotherapies", which focuses on macrophagebased and macrophage-targeting immunotherapies in cancer, autoimmunity, allergies and other inflammatory conditions. Increasing knowledge of macrophage heterogeneity has recently led researchers and clinicians to explore their yet unknown roles in cancer, allergic, hypersensitivity and autoimmune reactions. Moreover, uncovering the strategies of regulating/modulating macrophage-mediated processes will greatly facilitate current progress in the development of targeted therapies, including those based on cellular products and extracellular vesicles (EVs). We cordially invite all interested researchers to submit their original and review articles covering relevant, basic research and clinical findings so that the Special Issue can become a platform for sharing experiences between researchers and clinicians.

Guest Editors

Dr. Katarzyna Nazimek

Department of Immunology, The Jagiellonian University College of Medicine, 31-008 Krakow, Poland

Prof. Dr. Krzysztof Bryniarski

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
