

Special Issue

Mechanisms of Chemical and Enzymatic Reactions

Message from the Guest Editor

A plethora of applications of chemical and biochemical molecules, ranging from the medical use of small molecule drugs through complicated bio-vaccines to material design, cannot be achieved without a deep understanding of the processes involved in their preparation and action. This can be achieved nowadays via both experimental as well as theoretical studies. In this Special Issue, we would like to focus on the latest developments in the area of studying (bio)reaction mechanisms. Consequently, we look forward to collecting original research reports, as well as reviews of recent progress and perspectives from experts in the field.

Guest Editor

Prof. Dr. Piotr Paneth

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
