

Special Issue

Therapeutic Advances in Vaccines

Message from the Guest Editor

Vaccinology has rapidly advanced beyond prevention to therapeutic applications against infectious diseases, chronic conditions, and cancer. This Special Issue, *“Therapeutic Advances in Vaccines”*, seeks original research, reviews, and clinical studies on innovative platforms and translational breakthroughs shaping therapeutic vaccination. We welcome work on mRNA/DNA vaccines, viral vectors, peptide or protein-based vaccines, personalized cancer vaccines, immune checkpoint-targeting strategies, and combinations with immunomodulators. Submissions exploring mechanisms of immune tolerance/activation, immunological memory, antigen persistence, clinical trial data, real-world outcomes, and regulatory or ethical aspects are also encouraged. By bringing together multidisciplinary insights—from immunology, molecular biology, clinical practice, and regulatory science, this collection will showcase recent advances and accelerate the transition of therapeutic vaccines from bench to bedside.

Guest Editor

Dr. Dorota Kopciuch

Department of Pharmacoconomics and Social Pharmacy, Poznan University of Medical Sciences, 60-806 Poznań, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
