Pathogenesis and Molecular Treatment of Primary Liver Cancer

Message from the Guest Editor

Primary liver cancer (PLC) is a group of tumor entities that are characterized by their high aggressiveness and dismal outcomes. In recent years, numerous signaling cascades involved in PLC development and progression have been elucidated, and several molecularly and immunologically based therapies have been generated, with some becoming the first-line treatment for specific tumor subsets. Given PLC's importance in the medical and research fields, the International Journal of Molecular Sciences is launching this Special Issue. Specifically, we aim to showcase the current knowledge on the molecular pathogenesis of PLC and the efforts on anticancer drug development. Original research articles, review articles, and short communications within the described research topic are welcome.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
