Molecular Mechanisms of Sarcoma Initiation and Metastasis

Message from the Guest Editor

Due to the rarity and heterogeneity of sarcomas, investigation into molecular targets has been particularly challenging. Although intensive chemotherapy and the establishment of surgical procedures have improved the outcomes of patients with sarcomas, the curative rate of recurrent and metastatic sarcomas remains unsatisfactory. Recent basic science research has revealed some of the mechanisms of the progression and metastasis of malignancies, including proliferation, apoptosis, angiogenesis, tumor microenvironment, migration, invasion, and the regulation of antitumor immune systems. This Special Issue aims to bring together the highest-quality original and review articles on basic and pre-clinical research for bone and soft tissue tumors. We invite papers addressing molecular biology, the microenvironment, and metastasis mechanisms.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
