

## Special Issue

# Drug Discovery: Design, Synthesis and Activity Evaluation

### Message from the Guest Editors

The Special Issue “Drug Discovery: Design, Synthesis and Activity Evaluation” aims at publishing studies within the medicinal chemistry field. In particular, it intends to cover the early stage of preclinical research in the drug discovery pipeline, including target identification and validation; hit discovery; assay development and screening; high-throughput screening; hit to lead; lead optimization; in vivo, in vitro and ex vivo assays; absorption, distribution, metabolism, and excretion (ADME); and drug delivery. Moreover, it welcomes not only original research papers, but also comprehensive reviews. The original research papers should comprise the design (with or without computational support), organic synthesis, characterization, and biological activity evaluation of novel potent lead compounds, considering small to large biologically active molecules.

### Guest Editors

Dr. Joana L. C. Sousa

LAQV-REQUIMTE, Department of Chemistry, University of Aveiro, 3810-193 Aveiro, Portugal

Prof. Dr. Artur M. S. Silva

LAQV-REQUIMTE, Department of Chemistry, University of Aveiro, 3810-193 Aveiro, Portugal

### Deadline for manuscript submissions

20 September 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
