

## Special Issue

# Molecular Diagnosis and Therapy of Non-Small-Cell Lung Cancer

### Message from the Guest Editor

We are pleased to invite you to submit your manuscript to our Special Issue, entitled "*Molecular Diagnosis and Therapy of Non-Small Cell Lung Cancer*", which aims to explore the comprehensive landscape of lung cancer with oncogenic drivers. This Special Issue will highlight novel diagnostic platforms for detecting driver mutations, including liquid biopsy techniques, and delve into the roles of signaling cascades, exosomes, microRNAs, and noncoding RNAs in lung tumorigenesis and treatment mechanisms. By uncovering the molecular mechanisms behind treatment resistance to tyrosine kinase inhibitors, we aim to identify new therapeutic targets and advance precision medicine approaches to improve patient outcomes.

---

### Guest Editor

Prof. Dr. Chien-Chung Lin

Department of Internal Medicine, National Cheng Kung University Hospital, College of Medicine, National Cheng Kung University, Tainan 704, Taiwan

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
