Drug Toxicity in Disease Therapy

Message from the Guest Editor

In this Special Issue, we hope to discuss all aspects of the toxic effects of different drugs and their complications to patient health, and how to prevent these complications as well. Drug control and management through personalized medicine, such as therapeutic drug monitoring, employed as a tool to minimize drug toxicity are also welcome.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
