Molecular Advances in Gynecologic Cancer

Message from the Guest Editor

Gynecologic cancers include those that affect the female reproductive organs, including five major types, namely ovarian, uterine, cervical, vaginal, and vulvar cancer, as well as the rare fallopian tube cancer. Research focused on the molecular characterization of particular types of cancers provides us with a better understanding of tumorigenesis as well as the pre-clinical management of various cancer types. Thus, molecular advancements in this matter provide us with the chance for advanced screening tests along with new diagnostic and prognostic markers. In this Special Issue, we would like to invite you to submit original research articles and comprehensive reviews about the recent molecular advancements in the field of gynecological oncology.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
