Updates on Prostate Cancer Research: Molecular Diagnostic Biomarker

Message from the Guest Editor

In prostate cancer, it is very important to diagnose meaningful prostate cancer early, but markers with high accuracy that can be used in clinical settings have not yet been introduced. It is necessary to develop a useful marker that can overcome the low specificity of the existing PSA and can be used as a monitoring and prognostic marker in addition to screening. In this Special Issue, we would like to introduce recently updated biomarkers for the diagnosis of prostate cancer and research for molecular biomarker development. Since *IJMS* is a journal of molecular science, pure clinical studies will not be suitable; however, clinical submissions including biomolecular experiments focusing on the above-mentioned topics are welcomed. Prof. Dr. Jae Heon Kim

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
