New Advances in Mitochondria Biology

Message from the Guest Editor

This Special Issue aims to collect original research articles and full review papers dealing with all aspects of mitochondrial biology. Contributions related to, but not limited to, mitochondrial morphology, cristae, mitochondrial nucleoids, interactions with other organelles, and quality maintenance are welcomed. Papers covering new aspects of mitochondrial bioenergetics will also be considered.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
