

## Special Issue

# Tumor Microenvironment and Immune Response in Breast Cancer

### Message from the Guest Editors

This Special Issue will highlight studies on how the interactions between cancer cells and their microenvironment regulate the immune response and contribute to breast cancer development, progression, and metastasis. We invite researchers to submit high-quality original research papers and comprehensive reviews on topics that include but are not limited to the following:

- Identification of novel immune modulators in breast cancer;
- Mechanisms of immune suppression in breast tumors;
- The role of the breast tumor microenvironment in regulating immune cell activation and phenotype;
- Novel models and experimental approaches to study the immune response in breast tumors;
- Delineating heterotypic signaling pathways between breast cancer and stromal cells;
- Immune escape, dormancy, and tolerance in breast tumors;
- Development of novel immune-based therapeutic and preventive strategies for breast cancer.

---

### Guest Editors

Prof. Dr. Steven R. Post  
Dr. Behjatolah Monzavi-Karbassi  
Prof. Dr. Thomas J. Kelly

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
