

## Special Issue

# Novel Molecular Research Targeting the Application of FFPE Tissue: Development and Updates

### Message from the Guest Editor

Fixing tissues in formalin and then embedding them in paraffin to produce FFPE tissue blocks has been the preferred method of tissue preservation for clinical diagnosis for decades because this excellently preserves the tissue architecture and optimizes the required immunohistochemical protocols for patient diagnosis. However, when extracted from FFPE tissue, the nucleic acids and proteins are fragmented and chemically modified, which presents challenges for scientists and clinicians looking to use FFPE tissue for research or in genomic medicine. This Special Issue presents the latest research that focuses on understanding and addressing the problems associated with FFPE tissue, thereby facilitating their more widespread application in research and diagnosis.

### Guest Editor

Dr. William Mathieson

Biospecimen Research Group, Integrated BioBank of Luxembourg,  
Luxembourg Institute of Health, 1 rue Louis Rech, 3555 Dudelange,  
Luxembourg

### Deadline for manuscript submissions

closed (20 May 2024)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
