

## Special Issue

# Polymers, Biopolymers and Their Modifications: Spectroscopic/Fluorescence Properties

### Message from the Guest Editors

This Special Issue is primarily dedicated to topics related to the application of polymers and biopolymers modified with the addition of various compounds, both known and newly synthesized. We are particularly interested in the fluorescent and phosphorescent effects of molecules enclosed in rigid polymer matrices, also in the effects of room-temperature phosphorescence (RTP) emission. Therefore, we encourage you to submit experimental spectroscopic, theoretical and biological papers in this field.

---

### Guest Editors

Dr. Arkadiusz Matwijczuk  
Prof. Dr. Mariusz Gagoś  
Prof. Dr. Beata Podkościelna

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
