

Special Issue

Computational, Structural and Spectroscopic Studies of Macromolecules

Message from the Guest Editor

Understanding the structure and dynamics of macromolecules is essential to clarifying the complex nature of biological systems and promoting progress in fields like molecular and materials science, medicine, and biotechnology. Since macromolecules are so complex and have a variety of functions in life forms, understanding them is a challenge for scientists working in a wide range of fields. Our understanding of macromolecular systems can be improved by combining experimental data from various spectroscopy techniques with computer models. An updated overview of the computational, structural, and spectroscopic studies of macromolecules is intended to be provided by this Special Issue of the *International Journal of Molecular Sciences*, named “Computational, Structural and Spectroscopic Studies of Macromolecules”.

Guest Editor

Dr. Sanja Dolanski Babić

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
