

Special Issue

Recent Advances in Soybean Molecular Breeding

Message from the Guest Editor

Soybean, an economically relevant legume crop, is widely cultivated due to its edible oil and protein content. In recent years, researchers have endeavored to increase the yield of soybean under various growth conditions. This Special Issue, entitled “Recent Advances in Soybean Molecular Breeding”, aims to promote strategies that enhance the yield of soybean in response to the growth of the global population and changing climatic conditions. We therefore welcome contributions that address the following topics: Altering plant architecture to improve yield performance; Improving varieties to expand cultivation areas; Enhancing nutritional quality; Increasing tolerance to stress; Genetic engineering for soybean improvement. This Special Issue aims to highlight recent breakthroughs and innovative methods related to the breeding and genetics of soybean.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
