

## Special Issue

# New Advances in the Development of Anti-inflammatory Drugs

### Message from the Guest Editor

Inflammation is a complex process that is involved in many acute diseases, but especially in chronic diseases such as asthma, rheumatoid arthritis, psoriatic arthritis, systemic lupus erythematosus, Crohn's disease, multiple sclerosis and others. There is a wide range of substances used to treat these pathologies, such as steroids, selective and non-selective cyclooxygenase inhibitors and targeted therapies. However, due to the problems presented by this class of drugs, innovation in this field is very interesting. This Special Issue of *International Journal of Molecular Sciences* will focus on "New Advances in the Development of Anti-inflammatory Drugs", including new insights into the design and discovery of anti-inflammatory drugs, their mechanisms of action at the molecular level, or improvements to existing drugs through nanotechnology.

### Guest Editor

Prof. Dr. Teresinha Gonçalves Da Silva  
Antibiotics Department, Federal University of Pernambuco, Recife  
50670-901, PE, Brazil

### Deadline for manuscript submissions

closed (15 April 2024)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
