New Research on Anti-Inflammatory Molecules in Diseases

Message from the Guest Editors

Allergic diseases are characterized by chronic inflammation. To date, the treatment of allergic diseases mainly includes the management and therapeutic education for patients and allergen avoidance, traditional pharmacotherapy (H1-antihistamines, corticosteroids and anti-leukotrienes, etc.), allergen immunotherapy, biologics administration, and other therapies. Many new classes of anti-inflammatory drugs are in development, highlighting the fact that there are many possible therapeutic targets in the allergic process. Topics will include (but are not limited to) the following: Individuation of new targets for allergic anti-inflammatory therapy; Natural products as novel therapeutic strategies in allergic diseases; New synthetic compounds with anti-inflammatory properties in allergic diseases.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
