

Special Issue

Molecular Pathology and Treatment of Neuromuscular Disease

Message from the Guest Editors

This Special Issue entitled 'Molecular Pathology and Treatment of Neuromuscular Disease' delves into the intricate molecular mechanisms underlying neuromuscular pathologies and explores current scientific strategies. This compilation of articles aims to provide a comprehensive overview of current research trends and approaches, and molecular findings relevant to the neuromuscular system. Contributions feature advancements in molecular pathology, highlighting genetic factors, molecular markers, and cellular processes implicated in neuromuscular diseases. By fostering a deeper understanding of the molecular landscape, this Special Issue aims to accelerate the development of personalized and effective treatments, providing current insights for researchers, clinicians, and healthcare professionals dedicated to neuromuscular disorders.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
