

Special Issue

Parasite Biology and Host-Parasite Interactions

Message from the Guest Editors

We are pleased to announce the launch of a new Special Issue of *IJMS* on “Parasite Biology and Host-Parasite Interactions”. Protozoan and metazoan parasites are a major cause of disease and death in humans and in domestic animals, including livestock and wildlife. Host-parasite interaction is complex, with the host immune response recognizing hundreds of parasite molecules and parasites using multiple mechanisms and producing multiple molecules to manipulate the immune system. Nonetheless, there has been steady progress in understanding and controlling parasite infections. This Special Issue will bring together original research articles and reviews to examine our knowledge of parasite biology, observe the interactions between hosts and parasites, describe progress in parasite control, and highlight approaches that are proving to be productive. The focus is on molecular interactions, but clinical submissions with biomolecular experiments are welcomed.

Guest Editors

Prof. Dr. Michael Stear

Department of Animal, Plant and Soil Sciences, La Trobe University, Bundoora 3086, Australia

Dr. Katarzyna Donskow-Lysoniewska

Department of Experimental Immunotherapy, Faculty of Medicine, Lazarski University, 02-662 Warsaw, Poland

Deadline for manuscript submissions

closed (29 November 2023)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
