

Special Issue

Molecular Insights into the Environmental Toxicity of Contaminants and Risk Mitigation Strategies

Message from the Guest Editors

This Special Issue "Molecular Insights into the Environmental Toxicity of Contaminants and Risk Mitigation Strategies" aims to deepen our understanding of the biological effects of environmental toxicants by encouraging research employing in vivo, in vitro, and in silico models. Studies exploring the interactions between different toxicants, including microplastics, and their synergistic or antagonistic effects on biological systems are particularly welcome. We also invite investigations into innovative methodologies, including -omics, for assessing toxicity and strategies for mitigating the harmful effects of environmental pollutants. By providing molecular insights into the toxicity of diverse environmental exposures, this Special Issue seeks to contribute to the development of effective approaches with which to safeguard environmental and public health.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
