Recent Progress in Discovery and Designs of Multi-Target-Directed Drugs/Inhibitors

Message from the Guest Editors

The studies of discovery and design of multi-target drugs/inhibitors based on bimolecular interactions have brought great benefits to Molecular Pharmacology and Therapeutics for treatment on cancer, nervous, cardiovascular and immune system diseases. The principal aim of this Special Issue is to report recent progress in these hot research fields. The research and review articles of this issue will focus on how to find possible therapeutic targets for the discovery and designs of drugs/inhibitors using computational prediction and experimental approaches. All these studies will provide new insights into the discovery and design of drugs/inhibitors for the treatments of the above diseases.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
