

## Special Issue

# Gynecological Oncology: From Molecular Basis to Therapy

### Message from the Guest Editors

This Special Issue entitled Gynecological Oncology: From Molecular Basis to Therapy delves into the latest advancements in the field of gynecological oncology, spanning from the molecular underpinnings of these diseases to their therapeutic implications. With advancements in biomedical research, our understanding of the molecular mechanisms driving gynecological cancers, such as cervical, ovarian, and endometrial cancers, has significantly deepened, propelling the development of targeted therapies and personalized medicine. Molecular biological insights have paved the way for the development of novel therapeutic strategies that promise to transform the landscape of gynecological cancer treatment. Targeted therapies, immunotherapy, epigenetic modulators, and personalized medicine approaches offer new hope for improving patient outcomes and advancing towards the goal of precision oncology in the management of gynecological malignancies. We welcome your submission.

### Guest Editors

Prof. Dr. Martin Götte

Department of Gynecology and Obstetrics, University of Münster, Münster, Germany

Prof. Dr. Lars Hanker

Department of Gynecology and Obstetrics, University Hospital Schleswig-Holstein, Campus Lübeck, Lübeck, and AGO Study Group, Wiesbaden, Germany

### Deadline for manuscript submissions

closed (20 February 2026)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
