Abscisic Acid, a New Old Friend to Regulate Abiotic Stress Tolerance in Plants

Message from the Guest Editors

We invite experimental and review articles describing new molecular mechanisms of ABA-dependent signaling processes in response to abiotic stress, the integration with other pathways, and the potential use of ABA in agriculture to improve crop tolerance and productivity.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
