

Topical Collection

Advances in Molecular Plant Sciences

Message from the Collection Editor

In recent years, our knowledge of plant molecular biology has been dramatically improved by the introduction of breakthrough biochemical and biophysical techniques and new data on plant genomics and genetics. With the aim of stimulating broad interest in plant molecular biology, the papers in this Topical Collection of *IJMS* will present an overview of the latest discoveries in the field. For this reason, we invite scientists active in the field to provide the community with their outstanding research contributions. We welcome all types of submissions, including original research, reviews, perspectives, and opinion articles, including (but not limited to) research covering plants, plant sciences, and plant genetics/genomics.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
