Cellular and Molecular Targets of Preeclampsia

Message from the Guest Editor

Preeclampsia remains one of the most important diseases in perinatology. Although the cause of the disease has long been unknown, tireless efforts carried out by researchers have made a steady progress in relation to etiology and prevention. Of those, the use of low-dose aspirin (used for the prevention of preterm preeclampsia) represents a milestone. However, numerous aspects of preeclampsia remain unknown, necessitating further research. In this Special Issue, we invite a wide range of contributions associated with preeclampsia, with a primary focus on the molecular level and basic research. We also welcome translational research. We hope that this project will serve as a valuable contribution to the advances within the field of preeclampsia.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
