

## Special Issue

# mTOR Signaling in Anti-cancer Therapy Research

### Message from the Guest Editor

The mechanistic target of the rapamycin (mTOR) pathway is the main signaling cascade activated in various cancer cells, and its activation can promote carcinogenesis. The mTOR signaling pathway not only regulates gene transcription and protein synthesis to regulate cell proliferation and immune cell differentiation but also plays an important role in cancer metabolism. The mTOR pathway is potentially associated with apoptosis and autophagy and plays a key role in cancer. As a result, the mTOR signaling pathway is a popular target in anti-cancer therapy research. This Special Issue concentrates on the role of the mTOR signaling pathway in anti-cancer therapy research. The papers published here will certainly contribute to the ever-growing cancer research and provide a new insight into the anti-cancer mechanism.

### Guest Editor

Prof. Dr. Ji-Youn Jung

Department of Companion and Laboratory Animal Science, Kongju National University, Daehak-ro, Yesan-gun, Gongju-si 32439, Chungcheongnam-do, Republic of Korea

### Deadline for manuscript submissions

closed (20 October 2024)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
