

Special Issue

The Role of Omics and Artificial Intelligence for the Personalized Management of Inflammatory and Neoplastic Digestive Diseases

Message from the Guest Editors

In this Special Issue, we welcome authors to submit original research and review articles, contributing to a better understanding of the following topics that include, but are not limited to:

- generation and analysis of the ecological and functional multidimensional data of microbial communities;
- role of artificial intelligence (A.I.) in training and validating clinical and laboratory big data for disease prediction models;
- applications of A.I. in inflammatory bowel diseases;
- applications of A.I. in neoplastic and preneoplastic digestive diseases.

Guest Editors

Prof. Dr. Antonio Gasbarrini
Dr. Alfredo Papa
Dr. Lorenza Putignani

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
