

Special Issue

Natural Products in Drug Discovery and Development

Message from the Guest Editor

As traditional medicine continues to inspire modern pharmacology, researchers are increasingly turning to nature for solutions to pressing health challenges. In recent years, natural products have gained significant attention for their therapeutic potential. This Special Issue aims to compile research articles, reviews, and case studies that delve into various aspects of these topics. Through multidisciplinary approaches and innovative research methodologies, we aim to unlock the full potential of natural products in drug discovery and development. Key areas of focus include:

- Analysis and identification of natural product components.
- Pharmacological actions of natural compounds.
- Clinical efficacy and safety of natural products.
- Neg-entropy mechanisms in disease treatment and prevention.
- Pharmacological properties of aromatic drugs.
- Effects of essential oils on human health.
- Health benefits of probiotics.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
