

## Special Issue

# Advance in Pathogenesis, Diagnosis, and Treatment of Chronic Obstructive Pulmonary Disease (COPD)

### Message from the Guest Editors

This special issue aims to summarize new advances in the treatment and diagnosis of COPD with a special focus on cutting-edged diagnostic/prognosis tools, potential treatments and novel pathogenic pathways involved in disease. Advances in understanding the natural history of COPD and the development of strategies to assess COPD early in the disease is crucial to lower disease mortality. In this context, different approaches, from basic to translational research would constitute a particularly relevant opportunity to join efforts in improving our knowledge on these topics. For this reason, we invite you to submit research articles, either through original research or review formats. We especially welcome manuscripts that focus on the early diagnosis of COPD.

### Guest Editors

Dr. Amanda Iglesias

1. Instituto de Investigación Sanitaria Illes Balears (IdISBa), 07120 Palma de Mallorca, Spain. 2. Centro de Investigación Biomédica en Red in Respiratory Diseases (CIBERES), 28029 Madrid, Spain.

Dr. Kazufumi Nakamura

Center for Advanced Heart Failure, Okayama University Hospital, Okayama, Japan

### Deadline for manuscript submissions

closed (15 September 2023)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
