Endometriosis: Focusing on Molecular and Cellular Research

Message from the Guest Editor

Endometriosis is a common disease in reproductive system that affects approximately 6–10% of women of reproductive age. It is the presence of endometrial-like endometrial cells, glands, and stroma outside the uterus, resulting in the symptoms such as pelvic pain, painful periods, pain with sexual intercourse, and subfertility. Despite the great advances in diagnostics, pharmacology, minimally invasive surgery and assisted reproduction technologies, endometriosis still represents an unsolved global health issue. This Special Issue aims to publish advanced research and review articles in a basic science. Aiming to let readers have a better understanding of the molecular mechanisms governing endometriosis and its important prerequisite for the development of new therapeutic approaches.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
