

## Special Issue

# Application of Biomaterials in Human Diseases

### Message from the Guest Editor

Artificial restoration of biological functions and the development of matching reconstructive surgery are necessary to maintain acceptable living conditions. In addition to making it possible to choose materials based on application locations and usage durations, the creation of high-performance biomaterials makes a substantial contribution to the growth of regenerative medicine in the medical profession. They are therefore employed as hard tissue substitutes or for long-term implant applications in orthopedics, cardiology, dentistry, and other professions needing mechanical strength and ductility. We hope to gather a variety of insights in these areas to further medical advancement and support the future development of your research field.

### Guest Editor

Dr. Satoshi Komasa

Department of Oral Health Sciences, Faculty of Health Sciences, Osaka Dental University, 1-4-4, Makino-honmachi, Hirakata-shi, Osaka, Japan

### Deadline for manuscript submissions

20 March 2026

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
